SiR

'Cause I ain't about to roll it if I ain't rollin' that fi-i-i-  
ire  
Yeah the sun is going down but I'm tryna take you hi-i-i-igher  
We both know this house could never be a home  
But ain't you sick of spending all your nights alone?  
If it's lovin' that you want girl, I promise you desire

No conversation when I come around  
Run my fingers through your baby hair  
I wanna take you there  
For sho' you know what it's about  
But fine, I love it when you say we're there  
I wanna take you there  
You toot it up, I tear it down  
You bring it back, I wear it out  
Hit it like woah, woah, woah, woah, woah

Baby, you're the finest  
Pussy taste like diamonds  
How'd you get so timeless?  
Wanna get behind it, behind it  
Remind ya, I know how to find it  
Hit it how you like it  
Show you how we slide, how we slide, back in L.A., L.A.  
Park circle, that way  
Ready for the showdown, the Wild Wild West way  
Ooh you know you're flame  
And I put that on my last name  
Gonna take my time in it, climb in it for the day

No conversation when I come around  
Run my fingers through your baby hair  
I wanna take you there  
For sho' you know what it's about  
But fine, I love it when you say we're there  
I wanna take you there  
You toot it up, I tear it down  
You bring it back, I wear it out  
Hit it like woah, woah, woah, woah, woah

'Cause I ain't about to roll it if I ain't rollin' that fi-i-i-  
ire  
Yeah the sun is going down but I'm tryna take you hi-i-i-igher  
We both know this house could never be a home  
But ain't you sick of spending all your nights alone?  
If it's lovin' that you want girl, I promise you desi-i-i-ire
