

Love You

SiR

I know why you came
Heard I have that fire
Well, welcome to the flame
I love all my first timers
Get comfortable, I'm here for you
And whatever you desire
You can call me Mr. THC
I'm gonna take you higher

Baby, I'm just here to love you
I'm just here to love you, baby
Baby, I'm just here to love you
I'm just here to love you, baby

You can take the lead
Or I could be the captain
If it's up to me
We'd be headed for some action
I just wanna be where you wanna be
So tell me where to take you
I hope you feel complete when you're next to me
Girl, you're getting the best of me

Cause I'm just here to love you
I'm just here to love you, baby
Baby, I'm just here to love you
I'm just here to love you, baby
