

## New LA

SIR

Queen of the cabaret  
Dancin' the night away  
You can tell this is her favorite song  
Where she's from is hard to say  
Haitian born in Montego Bay  
Hopped the plane and never made it back home  
Found a way to new LA  
Cause she's attracted to to bright lights and foreign cars  
She never planned to fall in love  
No she just plannin' on findin' a movie star  
Playin' a part

Well tonight she got her eyes on me  
She know I like what I see  
I need to quit before I'm in too deep  
But I'm right where she wants me to be  
She don't even wanna know my name  
These new LA girls are all the same

.Paakaveli in this  
Sun settin' by and sweet fries and grilled fish, yeah  
You say you wanna stay for a little while  
But tell me how long I'll front you  
You say "we got the best weather year round"  
Well tell me something that I don't know  
You tryna match your face to the music  
You just preoccupied with the baseline groovin'  
You'd rather run around for a nigga with a fluke hit  
But when I press play you be like "hold up that's yo shit?"  
I got melodies, Never had no promethazine  
Born and raised in the city where they built yo dreams around dont front and  
keep it real

Tonight she got her eyes on me  
She know I like what I see  
I need to quit before I'm in too deep  
But I'm right where she wants me to be  
She don't even wanna know my name  
These new LA girls are all the same

Woah  
Fed up with these LA bitches only lookin' for the cheddar and cheese  
There be so many bad ones  
I'm honest I had me one  
But then she started tweakin'  
So like Bella Hadid  
I Had to stop fuckin' on the weekend  
Speakin' of the other broads that runnin' behind cars  
And brothers who mothers is hopin' soon they gon' be stars  
These chickens want grey poupon and tar tars  
Like that shit make you different  
You was who you was fo' you got here word to Jay  
I'm just a little Carolina nigga who don't play  
They only hard on the top layer creme brulee  
So please dog don't pretend today, we'll win today  
Cause if my niggas double back and pull a Mac-10 you like  
Ummm, How the Hindu's pray

Cause a nigga came to play  
Came to play today  
Please don't fuck around  
Man why we take the murder route  
Shouldn't we be worried bout  
Niggas dyin', niggas dyin'  
Or we could just not say shit  
And take the Cam Newton scary route  
But girl you could be the one who takin' me by surprise  
"LA might not be all that bad" replies the thighs  
I got a position I thought maybe you could fit it  
Tell me if you wit it don't stop get it get it

She don't even wanna to know my name  
These new LA girls are all the same
