

# Satisfaction

SiR

Satisfaction

Love me today  
Leave me tomorrow  
Yeah, love  
This ain't nothin' new  
Just what we do

Silly games we play  
Things we say  
Can't keep our hearts  
From falling apart  
We went too far  
Let down our guard

This was never meant to be what it feels like  
This ain't your real life  
And I'm not real  
As much as I hope one day, things could still work  
We both know the deal

This isn't as simple as satisfaction  
I wish the future never happened  
Oh, I wish I could stay in your arms  
I wish I could stay, hey

Early morning, birds are chirping  
Already got you workin' workin'  
Head and shoulders, goin' crazy  
Hard to make me wanna take it easy  
You deserve the best  
I want you to remember  
This incredible, incredible

See, this was never meant to be what it feels like  
This ain't your real life  
And I'm not real  
As much as I hope one day, things could still work  
We both know the deal

This isn't as simple as satisfaction  
I wish the future never happened  
I wish I could stay in your arms  
I wish I could stay
