

It's all or nothing
Hard times wasn't hard enough
I saw you bluffing
Cards lie when the dummy shuffle
Bloody knuckles
I take flight if you running up I run it up
Tell a hater elevator coming up
Uppercut with a left right and an overhand
I told you man
I don't play games if we throwing hands
I'm too legit
Don't come no cleaner than this
This here as real as it gets
I promise I do my shit

Okay let's drop the gloves
I'm not the one, we stepping heavy 'bout to spin your jaw
Boy ain't no weapon formed against me, have you sent to God
Ain't met a more force than me, youngin floating like a butterfly and stingi
ng like a bee
On my mama's mama, put you under six feet if you run up huh
Try a new opponent it get risky on the corner huh
Niggas get to splitting cause I'm as real as it gets
We'll give em smoke if they ask
I'm too blunt no cigar-

It's all or nothing
Hard times wasn't hard enough
I saw you bluffing
Cards lie when the dummy shuffle
Bloody knuckles
I take flight if you running up I run it up
Tell a hater elevator coming up
Uppercut with a left right and an overhand
I told you man
I don't play games if we throwing hands
I'm too legit
Don't come no cleaner than this
This here as real as it gets
I promise I do my shit

I might've slipped I might've fell
I got the Midas touch I might as well
They tried to dim my light I'm shining still
I jab em with the left the right as well
Ever since that I was little, had to fight with the twice the skill
My skin is black, I'm vigilant, Godwilling found myself
And I know better than to end up a statistic county jail
But if a nigga tryna square up
Ain't the time to hide in shell cause it's

It's all or nothing
Hard times wasn't hard enough
I saw you bluffing
Cards lie when the dummy shuffle
Bloody knuckles
I take flight if you running up I run it up

Tell a hater elevator coming up
Uppercut with a left right and an overhand
I told you man
I don't play games if we throwing hands
I'm too legit
Don't come no cleaner than this
This here as real as it gets
