

Something New

SiR

I found another life in London, it's true
I fell in love with the summer
Fell in love with you
You shine your light in the winter
I'll miss the darkest view
Now it's the perfect season
To swim the deepest blue

And if everything else falls apart
I still have you
If I can't find my way back home
We'll make something new
Something new

Now we off, one another
It's true
Something like no other
Tell me what would you do if she was me
Tell me how would you move if we're afraid

And if everything else falls apart
I still have you
If I can't find my way back home
We'll make something new
Something new

Welcome back...
