

Still Blue

SiR

Still blue
Still blue
Still blue
Still blue

Everything always the same
If it ain't one thing, it's another
Jumped out a plane and we both landed right where we started
There ain't a heart here to claim
It's a shame that we're still undercover
Acting like everything's perfect but nothing's quite like we wanted
Take a dive, still alive, love it
Catch a wave, still the same, nothin'
What we do? Fall in love every time
The water's fine but it's

Still blue
Still blue
Still blue
Still blue

We follow the rain just to see where it puddles
It's never the same, not like we hoped for
We stand on the shore, wishing that we could float
Searching for a paddle, we ain't even got a boat

Take a dive, still alive, love it
Catch a wave, still the same, nothing
The water's fine but still it just

Still blue
Still blue, over you
Lay it down, we know it's true
Still blue (Still blue)
Still blue, oh, oh, oh
(Still blue)
