

Timeless Desolation

Sirenia

Plunging into desolation
Another lost cause
Spend my life in isolation
Can't regain what once was

Another year now been and gone

Timeless loss and timeless affliction
It's all there ever was
Another strife, another infliction
There's no end to it all

Embraced by life's degeneration
Yet another loss
What is life but pure damnation
All that I came across

Another year now been and gone

Timeless loss and timeless affliction
It's all there ever was
Another strife, another infliction
There's no end to it all

For the times now been and gone
For the times now been and gone
For the times now been and gone
For each and every year undone

Timeless loss and timeless affliction
It's all there ever was
Another strife, another infliction
There's no end to it all

Timeless loss and timeless affliction
It's all there ever was
Another strife, another infliction
There's no end to it all...
