

## Adagio

Sissel

Weariness consumes me Longing pursues me Tremulous i fear All i  
seek is near Onwards with fear i go, with fear i go

Sweet golden days are passing Lost love everlasting Wretched an  
d torn apart Bitter and broken of heart Onwards with courage i  
go, onwards i go

Spirit of life, live on, in me a friend To guide me on, on to t  
he end Yet sure and slow The years will pass, Adagio

Silently imploring Hopelessly adoring Yet my will is strong Tho  
` fate decrees me wrong Onwards with hope i go, with hope i go

Greater griefs have found you Now happiness surrounds you I hol  
d you here in my heart Safe with me, never to part Onwards fore  
ver i go, Adagio Onwards i go
