

## Out of Left Field

Sissel

When least expected  
Fate stumbles in  
Bringing light to the darkness  
Oh, what a friend  
I needed someone to call my own  
Suddenly, out of left field  
Out of left field, out of left field  
Love came along

I was walking down a road that went nowhere  
Building dreams that were all left by the wayside  
And then outta the blue  
Honey, I found you  
You know I found you

Sugar and peaches in a paradise land  
Good love and sweetness, have taken their stand  
He made a mountain of love  
From a little grain of sand  
Suddenly, out of left field  
Out of left field, Out of left field

Love came along  
Everything is alright  
How sweet it is  
Love came along  
Out of left field  
Love came along  
My love came along
