

Back to Me

Sister Hazel

Lonely moonlight creeps in, I can't sleep from thinking
I'm so tired of you sleeping with your back to me
So I'm writing you this letter, gonna leave it on the dresser
Baby ain't no pressure to get back to me

If you find your way to find your way and finally come around
When you realize that I'm the one you can't live without
I'll be waiting on you, though I know I shouldn't be
I just love to see the love I gave to you
Come back to me

Go enjoy your freedom and let me know when you're done
But don't you have too much fun, word gets back to me
May the time is all I need, just a little space to breathe
Remember who I used to be, get back to me

If you find the way to find your way and you finally come around
When you realize that I'm the one you can't live without
I'll be waiting on you, though I know I shouldn't be
I just love to see the love I gave to you
Come back to me
Yeah, back to me

If you find the way to find your way and finally come around
When you realize that I'm the one you can't live without
I'll be waiting on you, though I know I shouldn't be
I just love to see the one I love come running
Back to me
Ooh back to me
Yeah coming back
Ooh back to me
