

## Champagne High

Sister Hazel

I wasn't looking for a lifetime with you  
And I never thought it would hurt just to hear  
"I do" and "I do"  
And I do a number on myself  
And all that I thought to be  
And you'll be the one  
That just left me undone  
By my own, hesitation

and for the million hours that we were  
well I'll smile and remember it all  
then I'll turn and go  
while your story's completed mine is a long way from done.

Well I'm on a champagne high  
Where will I be when I stop wondering why  
On a champagne high  
I'd toast to the future but that'd be a lie  
On a champagne high, high

Spring turned to summer  
But then winter turned to mean  
The distance seemed right  
At the time it was best - to leave  
And to leave behind  
What I once thought was fine And so real - to me  
And while I'm still gone  
On the quest for my song  
I'm at your - celebration

Your wagons been hitched to a star  
Well now he'll be your thing that's new  
Yeah what little I have you can borrow  
'Cause I'm old and I'm blue...

Well I'm on a champagne high (so high)  
Where will I be when I stop wondering why  
On a champagne high (so high)  
Toast to the future but that'd be a lie  
On a champagne high  
Where will I be when I stop wondering why  
On a champagne high... high...  
So high so high you left me undone  
so high, so high you left me undone....
