

Elements IV (Remembering Me)

Sister Hazel

They say that a man is
A blank slate and canvas
Well, I just need something to color me in
Through hell and high waters
We're all just sons and daughters
And everyone's doing the best that they can

Remember me
Remember me
Remember - I hope you remember me well
Remember me
Yeah, remember me
Remember - I hope you remember me well
Yeah, remember me
Yeah, remember me
Remember - I hope you remember me well

(Remember me)

Fell in love with a girl from Abilene
(I'm free)
Fell in love with a girl from Abilene
(I'm free)
Fell in love with a girl from Abilene
(I'm free)
She was the prettiest devil that you've ever seen

I got a little growing up to do still
Yeah, remember me
I got a little growing up to do still
Yeah, remember me
I got a little growing up to do still
Oh, remember me
I got a little growing up to do still
Remember me... yeah...
