

## On and On

Sister Hazel

Time keeps tearing everything into  
These pieces start to come unglued  
A little bitter weather comes through  
But you and me were built to last  
Stand there's nothing that we can't get past  
So let 'em all come and go  
Cause we know

Like a river runs straight into the sun  
We go on and on and on  
Like a melody stuck in your memory  
It just keeps growing stronger  
Buildings fall, they disappear  
But after all that we'll be standing here  
Cause we go on and on and on

Heartbreak happens every minute of the day  
People getting in their own way  
They keep waiting for the world to end  
When California falls into the sea  
You'll be standing right next to me  
So let 'em all rise and fall  
Cause after all

Like a river runs straight into the sun  
We go on and on and on  
Like a melody stuck in your memory  
It just keeps growing stronger  
Buildings fall, they disappear  
But after all that we'll be standing here  
Cause we go on and on and on

When everything is said and done  
We go on and on and on

Like a river runs straight into the sun  
We go on and on and on  
Like a melody stuck in your memory  
It just keeps growing stronger  
Buildings fall, they disappear  
But after all that we'll be standing here  
Cause we go on and on and on

Yeah we go on and on and on  
Yeah

On and on and on
