

Roll On Bye

Sister Hazel

Come on in, the water's fine

Honey what you waiting for?

You don't have to carry all those worries anymore

You know I adore you, and I'll be right here for you

Never know unless we try

Come on in, the water's fine

If you lost your faith you can borrow mine

We don't have to make it off so hard

We can only take it

One thing at a time

Hold on tight and let it roll on bye

Roll on bye

Roll on bye

Hold on tight and let it roll on bye

You're my favorite place to be

It don't matter where we are as long as you're with me

And let's pull off the highway, are you going my way

Leave it all behind us for awhile

Come on in, the water's fine

If you lost your faith you can borrow mine

We don't have to make it off so hard

We can only take it

One thing at a time

Hold on tight and let it roll on bye

Roll on bye

Roll on bye

Hold on tight and let it roll on bye

We can only take it

One thing at a time

Hold on tight and let it roll on bye

Roll on bye

Roll on bye

Hold on tight and let it roll on bye
