

# Slow Lightning

Sister Hazel

See those stars their like slow lightning  
Even the dying ones send light our way  
Our love baby's like slow lightning  
It doesn't have to fade away

I know your momma said that I'm no good  
Yeah, well maybe she was right cause I was wild, wild, wild  
Your friends said I'd never amount to much  
Yeah, but what do they know about being alive, live, yeah

See those stars they're like slow lightning  
Even the dying ones send light our way  
Our love baby's like slow lightning  
It doesn't have to fade away

Me and you are like sand and waves  
We go dancing like lovers through the night, night, night  
Whole world trying to push us apart  
You keep pulling me in like the tide

See those stars they're like slow lightning  
Even the dying ones send light our way  
Our love baby's like slow lightning  
It doesn't have to fade away

We go dancing through the night, night, night  
Never felt so alive, live, live  
Yeah, baby we were wild, wild, wild beneath the sky

See those stars they're like slow lightning  
Even the dying ones send light our way  
Yeah, our love baby's like slow lightning  
It doesn't have to fade away

Our love baby's like slow lightning  
Our love baby's like slow lightning  
Our love baby...
