

So Long

Sister Hazel

I know that it's been a long
Time since I've been gone
It's easy to forget--help me remember

Funny but I've never been
Good at stayin' close
But that don't mean that I never remember

And it's been --So long
Been gone but feel like we're one again
So long....
And it's been so long
I kept thinkin' maybe tomorrow
And now I'm gonna leave again--believe again
Yeah yeah--so long....

I take a little time to think
About what is right or wrong
And that will lead me home if I remember
And I do--me I know it's true
Come find me and I'll be there to tender

Take a little look around
I listen while I learn
Why are you the one I take for granted
'Cause I do--me I know it's true
I know you would never just demand it

[Chorus--some stuff--out]
