

## If You Really Want Me

Sister Sledge

If you really want me  
You've got to learn to love me right  
Come on tonight  
If you really want me  
You've got to make it right

If you really want me  
You've got to learn to love me right  
Come on tonight  
If you really want me  
You've got to make it right

So you've got me  
Deep in your heart, babe  
Look into my eyes  
They say that you need me  
You've got to peel  
What you say is for real  
Inside your love  
Promise me to please me  
Baby don't tease me

If you really want me  
You've got to learn to love me right  
Come on tonight  
If you really want me  
You've got to make it right

Say you want me  
To stay by your side babe  
Open up your heart  
Say that you'll keep me  
You've got to hold me  
Inside of your love  
And say you will  
Never leave me  
Say that you need it

If you really want me  
You've got to learn to love me right  
Come on tonight  
If you really want me  
You've got to make it right
