I walk out the music store
With the one I truly adore
Just one decision made
But IOm not sure if IOII ever get paid
Been waiting so long for a chance and IOII take it
Yeah now I realize that we can make it

## Chorus:

My life singing now We do what we want
Me and my red guitar
We red ridin a star
Feels like flyin high
The way that we play
Me and my red guitar
Finding the way

Itos just plain and simple how
My dream is guiding me now
My fate just canot wait well I
Can tell just by lookino at the sky
I know what I need and I know I can make it
Itos in my eyes, just canot fake it

## Chorus

From here there ll be no turnin back And I don t need no guarantees
As long as I know where my heart is at You ll find me down the street
That leads to me
Me and my red guitar
