

Reincarnation

[SITD:]

Night turns into day
Day turns into night
So what should I fear
I'm the eternal, genuine self

The beginning is the end
The end is the beginning
I'm dead, but i'm still alive
I'm the true nature of being

All existance is "one"
All existance is "one"
All existance is "one"

We laugh the pain away
We will be back again
We laugh the tears away
Our kingdom comes again
The world is like a dream
Fleeting and illusory
The true "self" - the immortal soul
It endures everlasting

The living spring from the dead
The dead spring from the living
So what should I fear?
I'm the cycle of death and rebirth

The beginning is the end
The end is the beginning
I'm dead, but i'm still alive
I'm the true nature of being

All existance is "one"
All existance is "one"
All existance is "one"
