

## Relief

[SITD:]

Still in doubt, no clarity  
Your spirit longs to wander free  
A battle you can't win  
Helpless saint in a world of sin

Bitter hardships to endure  
This world doesn't make you feel secure  
Together we'll stand the pain  
Walk with me through hardened rain

Let your tears run through my eyes  
Sometimes to live means to survive  
Clouds overshadow bliss  
Oh, let me carry you through this  
Cast all your cares on me

Oh, what had you so thrilled?  
What made you yearn to be fulfilled?  
Deep sorrow, time stood still  
Your track went down dale and up hill

Let faith in yourself rise  
Come with me, I am your life  
Feel in a deeper sense  
I will be yours at journey's end
