

Stand Up

Siti Nurhaliza

v1

Everytime I'm by myself

I'm staring out the window

I'm looking at the weather change

Seeing how the wind blows

I'm tired of giving everything

I've only got the air I breathe

I need sometime to myself

To lift me off the ground

Pre

Sometimes we learn

After we fall

But it's okay

Hook

If you stand up now

Your dreams will be heard

Gotta look inside your heart

If you believe you'll make

It through after all

Though at times they may break

You don't ever forget who you are

Because a woman's strength is in love

v2

When I look into your eyes

I know the pain you're feeling

But it doesn't take away

The beauty of your smile

Pre

Sometimes we learn

After we fall

But it's okay

Hook

If you stand up now

Your dreams will be heard

Gotta look inside your heart

If you believe you'll make

It through after all

Though at times they may break

You don't ever forget who you are

Because a woman's strength is in love

Bridge

Time after time

They will hurt you

(don't you ever give in)

There's a reason you've made it this far

(don't you ever give up)

Though the road maybe long just hold on

To the faith in your heart

In your heart

Hook

If you stand up now

Your dreams will be heard

Gotta look inside your heart

If you believe you'll make

It through after all

Though at times they may break

You don't ever forget who you are

If you stand up now

Your dreams will be heard

Gotta look inside your heart

If you believe you'll make
It through after all
Though at times they may break
You don't ever forget who you are
Because a woman's strength
Is in love
Is in love
