Before You Leave

Six60

Run before you walk
Sing before you talk
Look until you see
Fly before you leave

Thought I was holding up the world
But I wasn't even standing
Looked down and I was empty handed
It wasn't till I felt the waves
Crashing all around me
That I knew I was drowning

Run before you walk
Sing before you talk
Look until you see
Fly before you leave

Before you leave the ground
Before you leave the ground

Thought I was holding up the world
But I wasn't even standing
Looked down and I was empty handed
It wasn't till I felt the waves
Crashing all around me
That I knew I was drowning

Before you leave the ground
Before you leave the ground

Run before you walk
Sing before you talk
Look until you see
Fly before you leave the ground
