

Bitter End

Six60

I've been up where only stars have been
I've seen places no light can get in

If I had to do it all again
I know that I wouldn't change a thing
Ain't no better life
Than a life that's lived

And when the dream is over
Will anyone care?
Don't know how I'll be remembered
I just hope that I am

Done a little good
Done a little bad
I'll do it my way til the bitter end
Can we just dance forever?

Everybody's wonderin' how they got here
Been down every road but still it's not clear

If we had to walk them all again
Tell me, would you wanna change a thing
Nothing ever goes the way you plan
No no, oh

And when the dream is over
Will anyone care?
Don't know how I'll be remembered
I just hope that I am
Hey yeah

Done a little good
Done a little bad
I'll do it my way til the bitter end
Can we just dance forever?

And when the dream is over
Will anyone care?
Don't know how I'll be remembered
I just hope that I am

Done a little this
Done a little that
I'll do it my way til the bitter end
Can we just dance forever?
