Die For

Six60

Living everyday, like it was my last
Living everyday, like it was my last

When we were young
No love and no laws
Another round
A shot in the dark
Now put'em up
Baby I'm living by the gun
We're living by the gun

And if we run
Away from it all
Another loss
So shame on the?
Now give it up
Baby I'm living by the gun?

I just wanna live each day like its my last, last
Gotta find that something, worth dying for

Die for

Living everyday, like it was my last
Living everyday, like it was my last

Yeah yeah

One more time the night is still young
Lets have a toast for all that we've done
Now put'em up
Baby I'm living by the gun
We're living by the gun

Die for
And if we run
Away from it all
Another loss
So shame on the?
Now give it up
Baby I'm living by the gun
Yeah, this could be the last one

I just wanna live each day like its my last, last
Gotta find that something, worth dying for

Die for
Die for

Lalalala, lalalala.

Living everyday, like it was my last
Living everyday, like it was my last

Die for

Living everyday, like it was my last

Living everyday, like it was my last

When we were young
No love and no laws
Another round
A shot in the dark
Now put'em up
Baby I'm living by the gun
We're living by the.
