

Finest Wine

Six60

Know that we got only a little time
So like it or not, we gonna be drinking wine
No need to stop, until we see the sunshine
Start at the top, 'til we ease our worried minds

Know that I'm lost without you
Think of the cost of what you do
To me you really mean something
Running away will fix nothing
I'm begging you please reconsider
With you here life is much better

Know that I'll wait until I'm old and gray
Just to see your face again
Know that I'll wait until I'm old and gray
Just to see your face again

Know that I'm watching, every minute
I know what the clock says, but I'm not finished
Thinking of stopping, to rest our weary heads
The only option, thinking of times we've had

Bring me a glass of your finest wine
I wanna dance, 'til the morning time
Bring us some food, got to feed our minds
Drink and laugh 'til we feel right
I'm just too blind to see the signs
We're losing what we've made

Know that I'll wait until I'm old and gray
Just to see your face again
Know that I'll wait until I'm old and gray
Just to see your face again

Bring me a glass of your finest wine
I wanna dance 'til the morning time
Bring us some food, got to feed our minds
Drink and laugh 'til we feel right
I'm just too blind to see the signs
We're losing what we've made

Know that I'll wait until I'm old and gray
Just to see your face again
Know that I'll wait until I'm old and gray
Just to see your face again
Know that I'll wait until I'm old and gray
Just to see your face again
