

What's this, listen
Nothing written
See me, hear me
You should dare me

Secrets told you
Dreams, they hold you
Don't believe it
Can't conceive because it's true
What is wrong with you

Go, now you know
But you should've known all along
That we're solid
Go, now you know
I see you're trying to blow
So you can go get

Why this, hazy
This is crazy
It's just easy
But you can't see me

Secrets told you
Dreams, they hold you
Don't believe it
Can't conceive because it's true
What is wrong with you

Go, now you know
But you should've known all along
That we're solid
Go, now you know
But you're trying to blow
So you can go get

See you're out of touch
But your mind is wrong
See your heart, your heart is cold
How could you be wrong, yeah, yeah
What is wrong with you

Go, now you know
But you should've known all along
