

Hang On

Six60

They're lighting fires to dim your light
Saying don't you go and fly too high
But everybody needs a bully to fight
To teach you how to stand up right

Put my trust in the way I'm feeling
Don't say nothing unless you truly mean it

And hang on to your pride
Right now no one's on your side
But if you give it a little time
They'll be saying you were right, yeah

I don't mind if you don't believe me
Nothing worth doing is easy
I know it's hard to keep on keeping
When they tell you you're just dreaming

Put my trust in the way I'm feeling
Don't say nothing unless you truly mean it

And hang on to your pride
Right now no one's on your side
But if you give it a little time
They'll be saying you were right

Hang on to your pride
Right now no one's on your side
But if you give it a little time
They'll be saying you were right

Hang on to your pride
They'll be saying you were right
