

## It Isn't Over

Six60

You built your house  
Out on the sand  
'Cause some part of you don't understand  
That life will take  
All of your plans  
And wash them just like dirt off your hands

I know that you're in it  
That's the problem with this living  
Every end is a beginning

Just when you think it's over  
It isn't over  
Can't get no closure  
It isn't over

But when you think  
All hope is lost  
That's when you stand to land their longest shot  
Don't always get  
Just what you thought  
But there's still some good in what you've got

I know that you're in it  
That's the good thing 'bout this living  
Every end is a beginning

Just when you think it's over  
It isn't over  
Can't get no closure  
It isn't over

Just when you think it's over  
It isn't over  
Can't get no closure  
It isn't over
