

## Never Enough

Six60

Still can't shake the feeling in my bones  
It won't leave me, it won't let me go  
There was a time when you would've gave me every thing that you  
owned  
The only thing you left me was alone, at home

I guess our time is up  
I've given you too much  
I know I need to just  
Keep on moving  
'Cause I still crave your touch  
Why won't you fade to dust?  
So I can line you up

Enough is never enough  
Enough is never enough  
With every single dose  
Losing our control  
Enough is never enough

You keep sinking deeper in my soul, yeah  
Why won't you leave me?  
Why won't you leave me, and let me go?

I guess our time is up  
I've given you too much  
I know I need to just  
Keep on moving  
'Cause I still crave your touch  
Why won't you fade to dust?  
So I can line you up

Enough is never enough  
Enough is never enough  
With every single dose  
Losing our control  
Enough is never enough

Enough is never enough  
Enough is never enough  
With every single dose  
Losing our control  
Enough is never enough
