

Raining

Six60

It's been raining

The sun has gone away
Clouds are hanging over me
I don't go out to play
The cities looking dead to me
The birds don't sound the same
They sing with no melody
The seasons never change
Sky forever grey

It's been raining
Ever since you left town
It's been crazy
Now that you're not around
Ever since you left town

When will you return
Oh I need to know
Bring the sun back home
Don't you ever go again

It's been raining
Ever since you left town
It's been crazy
Now that you're not around
Ever since you left town
Ever since you left town

It's been raining
Ever since you left town
It's been crazy
Now that you're not around
Ever since you left town
It's been crazy
Ever since you left town
