

Right Here Right Now

Six60

House on the water
Watching the tide
Next to my kids
Making memories that used to be mine
Under cinnamon skies

My younger brother
Kicking a ball
With my eldest daughter
While nan's softly singing a song
And the birds sing along

Everyone is around
The family we made
And the family we found
I know it's simple
But I'd choose today
If I could freeze just one moment in place
If I could stay right here right now

Dad's on the couch
With a guitar in his hand
Playing "Let's Stay Together"
With the only four chords that he has
That he got from his dad

My mom's doing puzzles
With my sweet son
She says he's a genius
Oh, I wonder where that could've come from
It must be his mum
Ooh

Everyone is around
The family we made
And the family we found
I know it's simple
But I'd choose today
If I could freeze just one moment in place
If I could stay right here right now

Ooh. Ooh
Right now
Ooh. Ooh

Comfortably silent
I sit on the lawn
Watching each generation
Turn pages like dusk into dawn
Before the moment is gone

Everyone is around
The family we made
And the family we found
I know it's simple
But I'd choose today
If I could freeze just one moment in place

If I could stay right here right now
Please let me stay right here right now
