

Same Dirt

Six60

Tell me your name
Tell me your mountain
Tell me your river
Show me your home

The smell of the rain
The taste of the seasons
I wanna feel it
Like a song that I've always known

Same earth
Under our fingers
Same breath in our lungs
Same dirt that we all come from
Same dirt we'll become
Same dirt we'll become

Tell me your stories
Under the stars
Your first love
Your first lost
All the hard roads
That your heart crossed
Take me on a journey
Of what made you who you are

Same earth
Under our fingers
Same breath in our lungs
Same dirt that we all came from
Same dirt we'll become
Same dirt we'll become

Same earth
Under our fingers
Same breath in our lungs
Same dirt that we all come from
Same dirt we'll become
Same dirt we'll become

Same dirt we'll become

Same dirt we'll become
