Take It From Here

Six60

Tell me what we're doing here
Cos we could be anywhere
Take me away, I'm here to stay
Give it to me loud and clear
Tell me what you want from this
I don't need much more than this
We got it all, put your backs to the wall

Let me take it from here
From here, yeah
Let me take it from here
From here, yeah

Tell me what we're doing here
(Doing here, doing here, doing here)
Tell me what you want from this
(Want from this, want from this, want from this)

Let me take it from here
From here, yeah
Let me take it from here
From here, yeah

Let me take it from here
Let me take it from here
Let me take it from here
Let me take it from here

Let me take it from here
From here, yeah

Tell me what we're doing here
Cos we could be anywhere
Take me away, I'm here to stay
Give it to me loud and clear
Tell me what you want from this
We don't need more than this
We got it all, put your backs to the wall

Let me take it from here
From here, yeah
Let me take it from here
From here, yeah
