

Throw It Away

Six60

I said I'm in it, said I'm in it for the long ride
We push the limits, go the distance with the hard times
You said you in it, said you with me on a cold night
So we ain't finished, baby, you and I

Climbing up a mountain, climbing off the floor
Damn, my heart is pounding, so is yours
Climbing up a mountain, we've been here before
Even though my heart is torn

I don't wanna throw it away, throw it away
Look at all the love we'll waste
We just gotta do what it takes, it's never too late
To hold on to the promise we've made
Reach out, let me feel your hands
Help my body understand
You don't wanna throw it away, throw it away
'Cause I don't wanna throw it away

No, it ain't easy, it ain't easy when the rain falls
Your eyes get leaky, now you're screaming, guess that's my fault
Baby, believe me, if you leave me I'll have withdrawals
Give me your crazy cause I want it all

Climbing up a mountain, climbing off the floor
Damn, my heart is pounding, so is yours
Climbing up a mountain, we've been here before
Even though my heart is torn

I don't wanna throw it away, throw it away
Look at all the love we'll waste
We just gotta do what it takes, it's never too late
To hold on to the promise we've made
Reach out, let me feel your hands
Help my body understand
You don't wanna throw it away, throw it away
'Cause I don't wanna throw it away

Baby, don't
Don't let it go, don't let it go
Baby, don't
Don't let it go, oh oh

I don't wanna throw it away, throw it away
Look at all the love we'd waste
We just gotta do what it takes, it's never too late
To hold on to the promise we've made
Reach out, let me feel your hands
Help my body understand
You don't wanna throw it away, throw it away
'Cause I don't wanna throw it away
