

I wanna be your one and only
So I'm sending you these vibes
All these vibes
All these vibes
All these vibes

Ooh, ooh, ooh
I saw you came along
I felt me something strong
The room was kinda hazy
Been smokin', drinkin' lately
And then you turned around
I looked you up and down
Just ask my heart about it
It's goin' crazy, I'm...

Sending all these vibes to you
I'm a loaded gun, got my aim on you
I'm lucky that my wish came true
It turns out, that you ain't bulletproof

I wanna be your one and only
So I'm sending you these vibes
All these vibes
All these vibes
All these vibes

I wanna be your one and only
So I'm sending you these vibes
All these vibes
All these vibes
All these vibes

And then the moment came
It took my breath away
Not just a pretty face
I ain't that type to chase
But I'm a sucker for, someone with something more
Just ask my heart about it
Still going crazy, I'm...

Getting all these vibes from you
Got the loaded gun
I hope your aim is true
Nothing else that I can do
It turns out, that I ain't bulletproof

I wanna be your one and only
So I'm sending you these vibes
All these vibes
All these vibes
All these vibes

I wanna be your one and only
So I'm sending you these vibes
All these vibes
All these vibes

All these vibes
