

We Made It

Six60

I can tell by the look in your eyes
That the storms coming back again
I can hear in the sound of your voice
That you're starting to crack
After all of this time, I'd be lying if I said that I knew how to do
it just right
Cause the truth is I lose it sometimes
And I need you standing there to remind me
That I should say goodbye
To all the clouds in my mind

Oooh, I know it's been a bumpy road
Keep thinking there's so far to go
But take a look around it's amazing
If we made it here, then we made it
No better place I'd rather be
All of my people here with me
Never took the time to celebrate it
But if we made it here, then we made it

Oooh, Oooh, Oooh
Do you remember the days that we'd say
That we're gonna make it out
How crazy would it be
If they could see us now
Cause we used to dream so damn big
To be in a place that looks just like this
Open your eyes or you just might miss
Everything that we always wished

Oooh I think it's time to look around and realise
Yea, I know it's been a bumpy road
Keep thinking there's so far to go
But take a look around it's amazing
If we made it here, then we made it
No better place I'd rather be
All of my people here with me
Never took the time to celebrate it
Cause if we made it here, then we made it

Oooh, oooh
Take a look around it's amazing
Cause if we made it here, then we made it

Oooh, oooh
If you got a drink better raise it
Cause if we made it here, then we made it
