

All Praise

Sizzla

All praise to the most high
Have a good life
No Fairo cyaa chad by my side

All praise to the most high
Do as you like
Your blessing keep us alive

All praise to the most high
Have a good life
No Fairo cyaa chad by my side

All praise to the most high
Do as you like
Your blessing keep us alive

For the righteous going up
But the wicked is going down
All the talk I keep living up
King Selassie High wear the crown
There is no one else like Jah
You can search the whole wide world
Rasta Man chant gold fire
I tell you from early

Don't you take too long to find your self
Jah is a living man oh yes
King Rasta Farhigh no one else
Loving, kindness, be of good health
Jas is there through all your stress
All your problem put away
And you should know your very best
He's there for you everyday

Some are just too ungrateful
Never see what Jah has done
Adverse are just so hateful
Fight you as your blessings come
But it will never strike me one bit
Because I know King Selassie High rain
They never get their evil wish
Rasta children rise up again
