

Ha! Reaching out to all the peep
Who been suffering, ha-ha-ha-huu
Don Richie Records, uh-huh
Looking a better way, okay

Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed

More money mek things run right
Days them sunny and the youths them nice
No war nah gwan, youths gwan hold di vibes
Nobody nah dead and no gun nah point
Why should you suffer when material is vanity
Mind game, people losing their sanity
Development and fix all signatures
Ghetto youths getting richer

Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed

No roof, no clothes, all the kids in the dirt
Every day the situation a get worse
Create more jobs 'cause the people a search
Political system just nah work
The kids them fraid a the gunman
Own a people, all the guns them a tun pon
Education some people a run from
Time to get out a the slum, ey!

Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed

There's nothing sustainable
No change, this thing's on the same level
With violence, nothing is attainable
For the kids, no medicine available
Everyone needs a way out
Progress we need, corruption stay out
A better life that's what we pray about

Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed
Better we chant from better we need
Life so hard, so much mouths to feed

More money mek things run right
Days them sunny and the youths them nice

No war nah gwan, youths gwan hold di vibes
Nobody nah dead and no gun nah point
Why should you suffer when material is vanity
Mind game, people losing their sanity
