

Yeah yeah yeah
It's been a long journey
Get me where I'm at
Through it all

They didn't expect to see me
Getting all where I'm at
They been wishing the worst
But I'm all the way ahead of that
They didn't help when I'd asked them
Aware for all that I've earned
Yeah you just cannot stop me
Now you see the table turn

They tried to block me from my blessings
Close the doors on me
Mother fuck I stood my grounds now it's more money
I ran up I'm off the ground like a tree house
Now I'm the nigga that these people speak bout
On top of my game like a sky box
Pretty bitches see my chain wanna ride cock
Too gutter untamed that's how I rock
Had to cut these niggas off like life crop

Friends turn into foes I don't need to hang
They robbed buddy bare face after they bust his brain
Fucked up because the hit was from his main man
Niggas jealous pocket watching but you gang gang
Life crazy didn't wanna be the underdog
Because the dealers and the killers they get all the broads
I done did it all a little drugs a little fraud
I wish these boys would man up and take they little charge

They didn't expect to see me
Getting all where I'm at
They been wishing the worst
But I'm all the way ahead of that
They didn't help when I'd asked them
Aware for all that I've earned
Yeah you just cannot stop me
Now you see the table turn

Hands pressed together thanking my ancestors
I found the buried treasure now my shit together
No sleep Heath Ledger dready bringing pressure
And these niggas money short double up your effort
I'm running away in fact I'm lapping bitches
Hear them from the sidelines wooop go an get them

Young nigga got a plan so it's no chillin
I'm printing up these invoices I got four children
Running it up remember I was broke as fuck
Back in college nigga ha the hoes cooking up
Back then ain't had no vision just bitches
In the mirror like tighten up

They didn't expect to see me

Getting all where I'm at
They been wishing the worst
But I'm all the way ahead of that
They didn't help when I'd asked them
Aware for all that I've earned
Yeah you just cannot stop me
Now you see the table turn
