Sizzla

Oh ohh ohh yea ahhh  
Oh ohh yea  
Life is for us to live,  
Live it and be clean oh oh  
And love is for us to give,  
Never you go acting mean ey  
And life is for us to live,  
Live it and be clean whoa oh  
Love is for us to give,  
Live and forgive

This I come to know and I'll say again  
When I love I just can't pretend  
So even though ey you sight the all ah them  
Ah go long like them don't got no sense

This I come to know, grow and experience  
Never ever trust the heathen  
For even though you sight the whole ah them  
Them device ah plot for you around the bend  
Well then, you never going to get us down  
Burn you whether you nah love me sound  
Couldn't take the power so you run, you clown  
More than lightning more than thunder  
Any time me come around  
Hail for an ounce you run gone with a pound  
Dis King Selassie then me know you they go drown  
Remember Jerusalem bound,  
Where thou standeth is holy ground  
Many a times you face the drought in a this zone  
Give thanks for the blessings so preciously count  
Rasta forgive us more than the amount,  
In the abundance I shout, oy and

Life is for us to live,  
Live it and be clean oy  
And love is for us to give,  
Live and forgive  
Remember that your life is for us to live,  
Yo I and I ah live it and be clean just be clean  
Cause love is for us to give,  
You got to live just live

Everything Babylon see them delight  
Babylon turn calm me say you just too hype  
Me come from in a the ghetto there so you no like  
And me nah go make you come change me vibes  
Someone will have to give Babylon a fight  
And Sizzla ah go dust them out before tonight  
Ah them alone what for come take me light  
And chat bout say them heavy, who them ah entice  
In this 21st century have your insight  
And you will see say them facety, nuff ah them bright  
Tell me one gone free them come make you no rejoice  
It bun you in,  
True you can't clamp down like vice  
We are all equal as the earth, oh what a might

I come to burn the wickedness from the place of heights  
You no get angry them ah know me type  
As long as them nah hail Selassie the whole ah them ah scribes yo

Life is for us to live,  
Live it and be clean oh  
Love is for us to give,  
Live and learn to forgive  
Remember that life is for us to live,  
Live it and be clean, no go long mean  
Love is for us to give  
Me go bun down Babylon regime

This I come to know and I'll say again  
When I love I just can't pretend  
So even though ey you sight the all ah them  
Ah go long like them don't got no sense  
This I come to know, ghetto youths grow and experience  
John Pope them a the heathen  
For even though them go on like a good vibes a flow  
Them device ah trap for you around the bend
