

# Most High

Sizzla

I got to call up on the most high  
And tell the enemies dem don't try  
I got to call up on the most high  
They don't know, am o tell you why

I got to call up on the most high  
And tell the enemies dem don't try  
I got to shout out king selassie high  
They don't know, am o tell you why

Life get so hard  
The tables turn and still I can't survive  
I got to stay focus, keep learning  
That's just how I ride  
Some buggers out there they just ain't learning  
They play with their life  
Ain't no love, ain't nothing concerning  
Seems they lost their pride  
Poor people got so many issues  
They got so many needs  
I represent the ghetto youths so many mouth to feed  
Some people waster their time  
They waste their days I can't believe  
I got to take it serious and do it

When I look around all I can see is sufferation  
The crime and violence that is destroying the nation  
It seems like no one out there holding a meditation  
I seems they don't want the youths to get no education  
I work so hard just to feed my damn family  
So right about now I can't take no animosity  
All over so many people facing poverty  
They work so hard still they ain't getting no money
