

Our Future

Sizzla

Oh wow wow wo ah!
Oh wow wow wo ah!

We are not gonna stand and let them destroy our future
If the foundation be destroyed what can the righteous do
So I'm burning this fire for me and you
Strictly truths and rhymes going through

This our lives we've been working so hard
Just to make it better doing it for a just cause
Give praise to Jah even then just be warned
There's the obstacles ain't no back against no wall

Here we're so pure we're so strong we're so free
Even those who hated us gotta look on and see
The Glory of Selassi, yes trully!
Most I made us what he wanted us to beee

Tell them take it is make it bad for themselves
It's a human qualibad makes bad for themselves
They want to destroy it and not put it in place
There doing evil things and them staring in your face,

Make a stop tell the evil what's going on,
Make this world a better place for the children growing up
Don't kill don't don't steal and you are the one to lead
Don't pollute the earth because we are the born come seed

(I'm leading you teaching you because we're living with each other yeah)
