

# Party Time

Sizzla

Party time, there's no other time  
The girls are looking really good  
Party time, there's no other time  
Looking like they really should

Party time, there's no other time  
The girls are looking really good  
Party time, there's no other time  
Their looking like they really should

Hey, don't watch what they say  
VIP because some girls are on their way  
Diss music why you let the music play  
Believe mi, we've been preparing for days  
I be reaching so quick  
And am not leaving my chicks  
There's no reason for it  
It's the season for it  
The clubs got really full  
The girls be telling me they love the vibes I pull

I got dem girls, I got dem link  
A meck the money by you fraking quint  
Good life pass up the thing  
Mister bartender mix ma favourite drink

As I ran these words let me remind you first  
We be clubbing wid some of the finest girls  
Oh yeah, I don't care as long as their happy  
Hey ain't nothing in this world that gonna stop it  
It's a party and we do what we like  
And we don't need to fight  
Girl squeeze me tight

They say she's crazy  
Because she got a mind of her own  
Crazy, crazy  
She won't leave me alone  
There must be supn wa shi like  
Seh she's never leaving me tonight  
Girls are just sexy and need comfort  
And if she giving me the love  
You know am going for it  
Be humble and just be good  
And there's nothing to it  
Everything good thing you do girl  
Is a blessing for it
