

Takes Only Time

Sizzla

Love when the youth them joyful cause it makes me happier
Negative people will come fight just to make you stronger
Riches and hype will destroy you what's your heart desire
Fight not against the uprising your blessings live forever
Selassie giveth life my heart never stop pump
Ghetto youths from your rights them can't give you no crumbs
To strive let go your pride Nyabinghi you fi jump
Could never kill the first born over them I triumph

Know thyself to be helped
It takes only time for you to know the truth in life, yeah
If you were loving life, you wouldn't have done wrong
You would only have done right, oh
Sizzla said life worth more than that

Look at the things you bring look at the price you give
Now the same song I sing the blame is on the fugitive
Mixing your mixtures to do what again
Fixing up your fixtures just to kill another friend
Still I learned such great things to know
Speedily you take your turn just to throw another blow
Who will be your friend to keep the glorious sheep
That's next, the wolf dem inna the Heap

It takes only time for you to know the righteous in life, yeah
If you are loving life, you wouldn't have done wrong
You would only have done right, oh
Sizzla said life worth more than that

Where does the future go live your life and you will see
Repatriate mother Africa say I must be free
Mount Zion I Selassie will forever be
That one with a crying voice couldn't have been me
I bear to Pure the love within the heights
I cleans them self well Delusion take their sight
Ghetto youth take care of your health don't catch no fright
Almighty rule of the power and the might

It takes only time for you to know the truth in life, oh
If you were loving life, you wouldn't have done wrong
You would only have done right, yeah

Life worth more than that
