

I know this place (I know this place)
You make it feel like home (You make it feel like home)
Now I know my place
Like when you send me home
I'm glad you're honest
I just thought I need to know about us
I'm glad we had our time
It's best not to see you bawl
Send flowers to your door

In College Park
Tore my heart apart
You let me in
To realize my sins, my sins
When you're with her
Hope you're happier
In College Park
Tore my heart apart

In College Park
In College Park
Tore my heart apart
In College Park
In College Park
Tore my heart apart
In College Park
Tore my heart apart
You let me in
To realize my sins, my sins
When you're with her
Hope you're happier
In College Park
Tore my heart apart
