Wha

It took me too long to notice
You holdin' me down
And I change my ways just to show you I know you
I like to keep you around
The way that you found me
The way you come 'round and you put yo' shit on me
Can't fuck with no boy
Need ya to hold me, you know me
I'm too P.I.M.P, too P.I.M.P

1, 2, 3, 4, girl, come join my cabaret
Puerto Rican princess, call her everyday

For someone like you, girl, I would change my ways
For your love
Nigga ain't payin' for yo' love
You the one that I dream about all day
You the one that I think about always
You are the one, so I make sure I'll behave
My love is your love, your love is mine

You put me on, I'm goin' vogue
This bitch a fur coat, I'm in my mode
P, they can't catch me, I'm on the road
Hop out the booth, Balenci' hell
Nigga, respect me, I walk in drip
Nigga, respect, I'm in ya bitch lip
She no respect, I send her on trip
I talked to God, I repaid my sins
[?], she need a bib

She wanna chat, I send her to bed
She come to London, I Prada'ed her shelf
You a bop, shouldn't be proud of yourself
Uh, pink diamonds, on my soul
You the one I want when I'm in hell
Uh, yeah, yeah, yeah, yeah
Bitch, I thank God you pray

For someone like you, girl, I would change my ways
For your love
Nigga ain't payin' for yo' love
You the one that I dream about all day
You the one that I think about always
You are the one, so I make sure I'll behave
My love is your love, your love is mine
