It's a whole lot of drugs in my system
A whole lot of bitches wanna get it
I'm with my boys, yeah my slimes we connected
And we shooting shots at his fitted
That bitch wanna take my life, I get it
She most def seen me before
That boy so mad he seen I'm winning
In the back with your bitch, with my hand on her throat
We gon' slime that boy, my strap got a mind of it's own
That old ass nigga washed
Got your bitch in the cut she was sipping Patron
We gon' scare that boy off and send him to the mosque
I wanna see the inside of your heart
Cause I can't tell with you
This shit so evil the way they keep us apart
Nah we can't never lose

My niggas G'd up we could never part
We hunt like some monsters we creep in the dark
