

You wanna get away  
You wanna great escape  
You said you need space  
But you can't get away

But I tried, way too many times  
But I can't get it right  
But you'll will never mind

Ohhh, is this other story called  
I just really got to know  
Always hearing on my own

Take me  
I just really need you, baby  
See. Yes or no. Not maybe  
Because I just got to know  
Yeah, I just got to know

I just hit you  
It's your phone  
To see what you into to  
I think I need you  
I feel your heartbeat on every speaker

I think I know what to do  
Same way I fell in love with you  
You know I need to help you grow  
You, gotta let me know

Take me  
I just really need you, baby  
See. Yes or no. Not maybe  
Because I just got to know  
Is it time for me to grow

I never need you  
I just want the truth  
I gotta move on

You wanna get away  
You wanna great escape  
But you can't get away  
You said you need space

Break it down
