

## shut up and drive

skaiwater

Had a good time with you  
We found a reason to fall off  
So it's a goodbye for you  
The way we ended, girl, I can't be proud of  
I hit you first, when you get work off  
Ask me to slide, and I take your shirt off  
You doing alright? I thought I would ask  
I'd hate to check in, find out you got you a new man

Shadow, I'm chasing a shadow  
It's hard to find someone like you, so heavy metal  
I wanna speed down the highway just one last time  
And you can kill us both, just shut up and drive

I woke up in L.A. fried  
Yeah, I seek blessings, I thank God, yeah  
Damn, my pockets, damn, my pockets gettin' there  
Thick cash, next to thick ass, and I'm feeling on it  
You can find me in the field, baby, 'cause I ain't no bitch you can hide  
'Cause I love the feel of something real, same way niggas love dickriding  
Come find me, ho, I ain't hiding  
I been puttin' on some loud shit, I can't move in silence  
He been puttin' on some bullshit, he must not love servin'  
We serve cunty in this building 'cause my hoes deserve it  
Make no judgement on no bitches 'cause my hoes still learning  
And I'm learning too, I'll crash the Benz before I swerved it, uh  
Girl, I heard you out here entertaining bitches compliments  
Playin' house with these hoes, bitch, you know you trim  
Mother paid a hundred dollars just to get you in  
I'm just tryna get you home, squeeze you like my gen  
You just like my gen, baby
